

“Luxury design is about more than finishes; it’s about creating spaces that feel personal. By listening deeply, we transform a home’s energy to elevate everyday living.”

—BIANCA FATHAUER

Primestones’ Arabescato Corchia marble graces the double islands, bar, and custom shelving unit, its rich veining complemented by quarter-sawn white oak cabinetry and white-painted perimeter cabinets. A glossy tile backsplash and custom plaster range hood add texture, while brass hardware and panel-ready appliances enhance the sleek, modern design.

THE INSPIRATION

My love for luxury design stems from the intentionality behind every detail. Luxury isn’t about the flashy finishes, but about creating spaces that feel deeply personal, with exceptional craftsmanship and a true sense of place. I fell in love with the way thoughtful design can transform the energy of a home, influencing the way people experience and feel within it.

THE APPROACH

All of our projects start with listening. Understanding how our clients live, what matters most to them, and how they want to feel in their home is at the core of our process. From there, we thoughtfully layer in textures, materials, and stories that reflect their lifestyle. We believe the journey should feel exciting, not overwhelming—so we bring a great deal of heart and clarity to every step along the way.

THE GO-TOS

Travel is one of my favorite design resources, especially when I’m sourcing materials or textures—whether it’s the tiles of a café in Brazil or the natural elements of a coastal hotel. I am always on the look out for new and interesting ways to bring a sense of soul into a space. Primestones is another invaluable resource. Their team consistently

delivers the perfect stones that align with our design goals. Working with them always feels like a true partnership, where their expertise, top-tier customer service and high-quality materials help us deliver the best for our clients.

THE MANTRA

Our core values revolve around connection, craftsmanship, and care. We genuinely care about the families we work with and pour ourselves into their homes. We also believe that while the remodel and new construction process can be tricky, it can also be enjoyable. That’s why we obsess over the details, stay organized, and lead with heart.
